For Life.

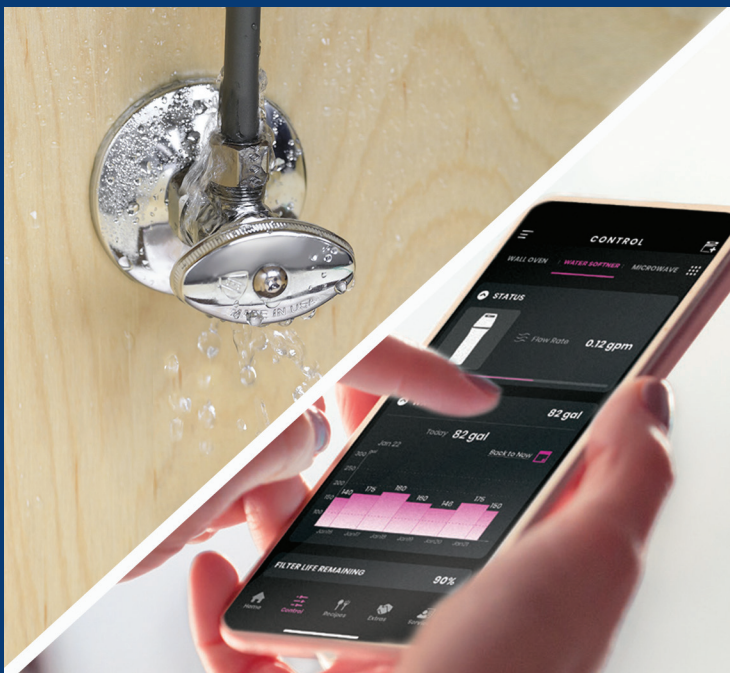

Water Softeners

Experience the difference of softened water

FEATURE HIGHLIGHTS

Water softeners from GE Appliances combine convenient features with reliable performance.

WIFI ALERTS & REMOTE SHUTOFF

Know immediately if there's a potential leak, low salt or a running faucet with smartphone alerts. (GXSHC40N only*)

*Requires WiFi signal at softener location.

CUSTOMIZED SOFTNESS

Choose how soft you want your water with our Custom Select™ blending valve.

SALT SAVER

Spend less time maintaining your softener with our consumption-reducing system.

SMARTSOFT™ TECHNOLOGY

Always have enough soft water when you need it thanks to technology that learns your water-use patterns.

Why Soften Your Water?

Hard water can cause many problems in your home. With a GE Appliances water softener, you'll experience these benefits:

- **Eliminate** rust stains
- **Eliminate** scale buildup in plumbing & water heater
- **Eliminate** soap scum
- **Improve** feeling of hair & skin
- **Clarify** drinking water
- **Reduce** cleaning time & detergent
- **Extend** the life of appliances
